Some of the questions below we have answered in various QFRs and press questions; hence, we are working to collate a series of questions that address different slices/dices of the PFAS TSCA universe and for each there would be a corresponding 'list'.

We are working on it among other things – some of same people prepping for the Transparency release next Th, which has been the higher priority of late.

Subject: OCSPP Clearance Requested: List of "Active" PFAS to post to Web

ACTION: OCSPP Clearance to Post

Please find attached the text [WORD document] that will accompany the posting of the 'Active' lists (non-CBI and CBI) of PFAS to the OPPT PFAS Risk Management page:

<https://www.epa.gov/assessing-and-managing-chemicals-under-tsca/risk-management-and-polyfluoroalkyl-substances-pfass>

The actual list is also attached [PDF document "602 TSCA Active Sanitized PFAS chemicals ...]

Below are screen shots of the Test Pages (thanks Cheryl!)

Once we put this up, Cheryl will work with OPA to link other Agency PFAS pages to the list.
